Warrant for Town Meeting

JANUARY 13, 1910.

COMMONWEALTH OF MASSACHUSETTS

NORFOLK, SS.

To George Twigg, a constable of the town of Needham,
in said county, GREETING :

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the town of Needham, qualified to vote in elections and town affairs, to meet at the town hall in said town on Thursday, the thirteenth day of January next, at eight o'clock in the afternoon, then and there to act upon the following articles, viz :

ARTICLE 1. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary to cover any deficiencies that may appear in the appropriations for the fiscal year ending December the thirty-first, nineteen hundred and nine.

ARTICLE 2. To see what action the town will take in regard to unexpended balances.

ARTICLE 3. To appropriate and raise by borrowing or otherwise such sums of money as may be necessary

carry on the several departments of the town for the remainder of the municipal year ending March the seventh, nineteen hundred and ten.

ARTICLE 4. To see if the town will vote that all notes issued by the town subsequent to the date of this meeting shall be registered at the office of one of the Trust companies in the city of Boston, and duly countersigned by an officer of such company, upon petition of George K. Clarke.

ARTICLE 5. To see if the town will vote to authorize the selectmen to take the necessary steps to form a corporation to take over the property devised to the town by the late Frederick P. Glover according to the provisions named in his will or pass any vote or votes relative thereto.

ARTICLE 6. To hear and act on report of committee on by-laws.

ARTICLE 7. To see if the town will vote to authorize the treasurer, with the approval of the selectmen, to borrow such sums of money as may be necessary to carry out the above votes under this warrant.

ARTICLE 8. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all appropriations asked for or proposed by the selectmen, or by any town officers or committees.

And you are directed to serve this warrant by posting attested copies thereof in not less than twenty public places in said town at least seven days before the time of said meeting; and also to leave a copy at each of the several dwelling-houses within the town.

ANNUAL
REPORTS
(DUPS)

Hereof fail not and make due return of this warrant with your doings thereon unto our town clerk on or before said day and hour.

Given under our hands at Needham afore-said this twenty-ninth day of December, A. D. nineteen hundred and nine.

WILLIAM A. PROBERT,

[SEAL]

JOHN A. TILTON,

HENRY T. CHILDS,

Selectmen of Needham.

OFFICER'S RETURN.

NORFOLK, SS.

Needham, January 4, 1910.

By virtue of this warrant I have this day notified and warned the inhabitants of the town of Needham to meet as within directed, by posting true and attested copies of this warrant in not less than twenty public places in said town seven days at least before the time of holding said meeting.

GEORGE TWIGG,

Constable of Needham.

A true copy of warrant and officer's return.

Attest:

THOMAS SUTTON,

Town Clerk.

Record of Town Meeting

JANUARY 13, 1910.

Pursuant to the foregoing warrant a meeting of the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, was held in the town hall in said town, on Thursday, the thirteenth day of January, in the year one thousand nine hundred and ten, at eight o'clock in the afternoon.

The meeting was called to order by the moderator.

Voted to omit reading the warrant.

The return of the officer who notified and warned the inhabitants was read by the town clerk.

ARTICLE 1. Dismissed.

ARTICLE 2. Voted that the unexpended balances in the appropriations for the year 1909 be turned into the treasury, except those of the public library, which shall be continued.

ARTICLE 3. Voted that the following sums of money be appropriated for carrying on the several departments of the town for the remainder of the municipal year ending March 7, 1910, each item being voted on separately.

For the construction, maintenance and repairs of highways, townways and bridges, four hundred dollars (\$400).

For street lighting, twelve hundred dollars (\$1200).

For police service, six hundred dollars (\$600).

For soldiers' relief, one hundred and fifty dollars (\$150).

For care of town hall and grounds, four hundred dollars (\$400).

For fire alarm, three hundred and fifty dollars (\$350).

For state aid, two hundred dollars (\$200).

For removal of snow, one thousand dollars (\$1000).

For incidental expenses and insurance, thirteen hundred dollars (\$1300).

For printing and stationery, five hundred dollars (\$500).

For relief and support of poor, ten hundred and fifty dollars (\$1050).

For maintenance of fire department, one thousand dollars (\$1000).

For salaries of town officers, one thousand dollars (\$1000).

For settlement on account of Mrs. Mary A. Murphy, one hundred and ten dollars (\$110).

For the suppression of gypsy and brown-tail moths, two thousand three hundred twenty-two dollars and seventy-eight cents (\$2322.78).

For the maintenance and construction of sidewalks, one hundred and fifty dollars (\$150).

For the use of the tree warden, fifty dollars (\$50).

For the use of the forest warden, fifty dollars (\$50).

For the use of the public schools, seven thousand dollars (\$7000).

For the use of the public library, three hundred dollars (\$300).

For the public use of water and hydrant service, four thousand dollars (\$4000).

ARTICLE 4. Motion under this article not carried.

ARTICLE 5. Voted that the selectmen proceed to take the necessary steps to form a corporation to take over the property devised to the town in the will of the late Frederick P. Glover; the same to be held for hospital purposes.

ARTICLE 6. Voted that the report of the committee on by-laws be received, and that each section be acted upon separately and in order.

The following by-laws were adopted, each section being voted upon separately, viz :

TOWN MEETINGS

Sec. 1. All town meetings shall be notified and warned by posting attested copies of the warrant calling the same, in not less than twenty public places in the town at least seven days before the time of holding the meeting.

Sec. 2. In addition to the legal notification required by the foregoing section, the selectmen shall cause to be left at each dwelling-house in the town a copy of the warrant for every town meeting, four days at least before the time named in the warrant for holding said meeting.

Sec. 3. The annual meeting for the election of town officers, and voting on any question directed by statute or otherwise to be taken by ballot, shall be held on the first Monday of March in each year; the polls shall be opened at six o'clock in the forenoon, and shall remain open until four o'clock in the afternoon.

The annual meeting for the appropriation of money and the transaction of all other necessary town business shall be held on the third Monday of March; the call for both meetings shall be issued on the same warrant.

FINANCIAL YEAR

Sec. 4. The financial year shall begin on the first day of January and end on the thirty-first day of December; and during the interval between the thirty-first day of December in each year and the time of making the next annual appropriations, the selectmen, the school committee, and the trustees of the public library, in order to meet the liabilities of their several departments incurred in the carrying on of the work entrusted to them, shall submit to the financial committee an estimate of the amount required by their several departments, and the finance committee may approve such estimates to an amount not exceeding one-fourth of the entire amount appropriated for such purposes in the previous year.

The finance committee shall notify the auditor and treasurer of their action, and said notice shall constitute authority for those officers to honor drafts made by the several departments and the same shall be charged against the said next annual appropriations.

FINANCE COMMITTEE

Sec. 5. After the declaration of the vote for town officers at the annual meeting in the year 1910, a finance committee of nine citizens shall be appointed by the moderator, three to serve for one year, three for two years, and three for three years; and at each annual meeting thereafter the moderator shall appoint three citizens for a term of three years. Said committee shall choose its own chairman and secretary. Vacancies may be filled at any time by the moderator.

To this committee shall be referred all articles calling for an appropriation exceeding the sum of one hundred dollars in any warrant for a town meeting hereafter issued,

and it shall be the duty of the selectmen after drawing a town warrant to transmit immediately a copy of the same to each member of the finance committee, and the committee shall report to the town thereon, in print or otherwise, such recommendations as it shall deem best.

Sec. 6. No vote shall be passed at any town meeting, except by a vote of two-thirds of the voters present and voting, by which any debt may be incurred for loans in anticipation of the taxes of any year except the fiscal year in which the appropriations are made.

Sec. 7. The auditor shall act as auditor of accounts, and said auditor of accounts shall be the only officer of the town authorized to make drafts upon the town treasurer, and the treasurer shall pay no bills unless approved and ordered paid by the auditor. The several boards of officers shall transmit to the auditor the bills of their departments, duly approved, and may specify to what appropriation they are chargeable.

Sec. 8. The auditor shall keep an account of all bills approved by him, and charge the same to the various appropriations. He shall send notice to the different departments of the amount of balances remaining of the appropriations, on the fifteenth of each month, and shall make no drafts after an appropriation is exhausted, except as provided in section 4. The treasurer may, however, pay any sum of money due on the principal or interest of any note, bond or other security of the town. The treasurer shall exhibit vouchers of such payments to the auditor within seven days after said payments.

Sec. 9. All bills and claims shall be presented to the auditor within seven days after the close of the financial

year, and all bills presented after that time shall be charged under the next succeeding year.

Sec. 10. The treasurer of the town shall have the custody, management and sale of all estates taken or purchased by the town under tax sales.

The treasurer of the town is authorized in the name and on behalf of the town to assign and sell the interest of the town in any estates taken or purchased under tax sales, and to execute, acknowledge and deliver proper deeds and instruments for the purpose; such sale shall be made subject to the approval of the selectmen.

Sec. 11. The selectmen shall act as town agents; have full authority as agents of the town to institute and prosecute suits in the name of the town, and to defend suits brought against it, unless otherwise ordered by special vote of the town.

Sec. 12. The auditor shall cause the valuation list, and the financial and other reports of town officers and committees, together with his own report on the same, to be printed and delivered to the selectmen for distribution not later than February 20, and a copy of the same shall be left at each dwelling-house in the town before the time of holding the annual town meeting for the election of officers.

Sec. 13. The town clerk shall cause to be printed official copies of the proceedings of the annual town meetings, one of which he shall send to each officer of the town within two weeks after the final adjournment of such meetings, and shall deliver one copy to any voter or tax payer in the town who may apply for it, and shall furnish printed copies of the record of each and every town meeting held during the year, and they shall be bound

with the annual report of town officers.

Sec. 14. All poll and personal property taxes shall be payable on demand, and all other taxes on or before the first day of October. Interest at the rate of six per cent per annum shall be charged on all taxes not paid on or before the first day of November. The collector shall use the means provided by law for the collection of all taxes remaining unpaid after the first day of December. (The above paragraph shall be printed on the tax bills). If, in the judgment of the collector, in consequence of removal or any other circumstance, any tax should be collected before the first of October, he is fully authorized to serve his warrant in the collection of such tax at any time. The collector shall guarantee the full amount of all taxes legally assessed and committed to him for collection, and shall be held to pay the town treasurer the same, with any interest that may accrue thereon, (except such sums as may be abated by the assessors); he shall pay the said taxes and interest from time to time, as he collects the same, and shall pay the full amount of all taxes committed to him, with the accrued interest, on or before the first day of April following. The compensation of the collector shall be one per cent on all taxes and interest collected by him and paid to the treasurer; he shall receive his compensation pro rata upon the collection of each fourth part of the full amount of the warrant.

Sec. 15. No vote shall be reconsidered except upon a motion made within one hour after such vote has passed, unless such reconsideration is ordered by a vote of two-thirds of the voters present.

Sec. 16. No elected town officer shall hold a salaried position under the board of which he is a member.

Sec. 17. No street shall be laid out and accepted by the town as a townway less than forty feet in width, nor until properly graded and suitably constructed for ordinary travel.

Sec. 18. The registrars of voters shall hold a session from one o'clock till five o'clock in the afternoon of the last day fixed by law for filing nomination papers.

Sec. 19. The selectmen may order numbers to be affixed or painted on the buildings on any street, in their discretion. The owner of every house shall comply with such order within ten days thereafter.

POLICE REGULATIONS

Sec. 20. Whoever shall post, affix, or in any way attach any poster, handbill, notice, advertisement or placard, or paint, draw, or stamp any letter, notice, figure, advertisement, or otherwise deface any wall, fence, tree, post, building, or structure not his own, within the town of Needham, except with the consent of the owner thereof, or upon any town property without permission of the selectmen; or shall distribute papers, circulars, or advertisements through the town in such manner as to create a disturbance or a litter, shall forfeit and pay a sum of not less than one dollar nor more than ten dollars for each offence.

Sec. 21. Whoever shall wilfully or maliciously deface or tear down any bill, placard, or notice, posted for a lawful purpose, except the same be affixed to premises owned by him or under his control, shall forfeit and pay a sum of not less than one dollar nor more than ten dollars for each offence.

Sec. 22. Whoever shall drive, or cause to be driven, any cart or wagon containing night-soil, or any cart or

wagon used for that purpose, through any public way in the town, except closed carts, or without permission from the Board of Health, shall forfeit and pay a sum of not less than one dollar nor more than ten dollars for each offence.

Sec. 23. Whoever shall behave in an indecent or disorderly manner, or use profane, indecent or insulting language in or upon any sidewalk, public way or other public place, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

Sec. 24. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any public way or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum of not less than one dollar nor more than ten dollars for each offence.

Voted, that the sections of the by-laws adopted be numbered in the order in which they were passed.

ARTICLE 7. Voted unanimously, that the town treasurer be and hereby is authorized with the approval of the selectmen, to borrow for general municipal purposes an amount not exceeding twelve thousand dollars, giving the notes of the town therefor, payable within one year from the date thereof.

At 11.32 P. M. voted that this meeting be dissolved.

Dissolved.

collected and fix the compensation therefor for the current year.

ARTICLE 10. To see what action the town will take regarding the purchase of gravel as recommended by the selectmen and to pass any vote or votes relative thereto.

ARTICLE 11. To see what sum of money the town will appropriate for the construction of Rosemary Hill street as laid out by the selectmen and accepted by the town under the provisions of Chapter 50, Revised Laws, and amendments thereto, upon petition of William Bailey and others.

ARTICLE 12. To see if the town will appropriate the sum of eight hundred dollars (\$800) for the construction of Cleveland road as laid out by the selectmen and accepted by the town under the provisions of the Betterment Act upon petition of Thomas F. Peabody and others.

ARTICLE 13. To see if the town will vote to accept the relocation and widening of Webster street between Dedham avenue and South street as laid out by the selectmen.

ARTICLE 14. To see what sum of money the town will grant for grading the grounds of Eliot school upon petition of William P. Meehan.

ARTICLE 15. To see if the town will vote to increase the salary of the auditor as recommended by the selectmen.

ARTICLE 16. To see if the town will appropriate the sum of one hundred dollars for the services of a clerk in the treasurer's department.

ARTICLE 17. To see if the town will vote to extend its fire alarm system by the installation of five new boxes and appropriate money therefor.

ARTICLE 18. To see if the town will vote to install an automatic repeater for the fire alarm system and appropriate money therefor.

ARTICLE 19. To see if the town will vote to extend its water mains on Greendale avenue from the house of Andreas Klauer to St. Cloud avenue, the distance being about 600 feet, and appropriate money therefor or pass any vote in relation thereto, on petition of John K. Cassidy and others.

ARTICLE 20. To see if the town will vote to extend its water main on Brookline street, a distance of 750 feet, and appropriate money therefor or pass any vote relative thereto on petition of John K. Cassidy and others.

ARTICLE 21. To see what instructions the town will vote to give the water commissioners as to fixing water rates upon petition of Benjamin W. Rideout and others.

ARTICLE 22. To see if the town will vote to accept the provisions of Chapter 423 of the Acts of 1909 relative to the sale of ice cream, confectionery, soda water and fruit on the Lord's day upon petition of James B. Lester.

ARTICLE 23. To see if the town will vote to amend or repeal any or all of the by-laws adopted by the town at its meeting held January 13, 1910.

ARTICLE 24. To see what action the town will take relative to the celebration of the Two Hundredth anniversary of the incorporation of the town, and to pass any vote or votes relative thereto.

ARTICLE 25. To see if the town will vote to accept the relocation of Garden street as laid out by the selectmen.

ARTICLE 26. To appropriate and raise by borrowing or otherwise such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and to act upon all the appropriations asked for or proposed by the selectmen or by any town officers or committees.

The polls may be closed at four o'clock P. M.

And you are directed to serve this warrant by posting attested copies thereof in not less than twenty public places in said town, at least seven days before the time of said meeting, and also to leave a copy at each of the several dwelling houses within the town.

Hereof fail not, and make due return of this warrant with your doings thereon, unto our town clerk, on or before said day and hour.

Given under our hands at Needham aforesaid, this twenty-third day of February, A. D., nineteen hundred and ten.

WILLIAM A. PROBERT,
JOHN A. TILTON,
HENRY T. CHILDS,

Selectmen of Needham.

Officer's Return

NORFOLK, SS.

NEEDHAM, Feb. 26, 1910.

By virtue of this warrant I have this day notified and warned the inhabitants of the town of Needham, to meet as within directed, by posting true and attested copies of this warrant in twenty public places in said town, more than seven days before the time of holding said meeting.

JOHN W. CRISP,

Constable of Needham.

A true copy of warrant and officer's return.

Attest :

THOMAS SUTTON,

Town Clerk.

Record of the Annual Town Meeting

MARCH 7, 1910

Pursuant to the foregoing warrant a meeting of the inhabitants of the town of Needham qualified to vote in elections and in town affairs, was held in the town hall in said town, on Monday, March 7, A. D. 1910, at six o'clock in the forenoon.

The meeting was called to order by the moderator.

Voted to omit reading the warrant.

The town clerk read the return of the officer who notified and warned the inhabitants.

ARTICLE 2. Voted to proceed to ballot for town officers as follows, viz: One moderator for one year, one town clerk for one year, three selectmen for one year, three overseers of the poor for one year, one assessor for three years, one town treasurer for one year, one collector of taxes for one year, one auditor for one year, two constables for one year, one member of the school committee for three years, one water commissioner for three years, two trustees of the public library for three years, one park commissioner for three years, one tree warden for one year, and upon the same ballot to vote "yes" or "no" upon the question: "Shall licenses be granted for the sale of intoxicating liquors in this town?"

Pursuant to sections 209 and 211 of chapter 560 of the acts of 1907 the selectmen having appointed Luke W. Keith, S. Frank Quinlan, Harry E. Walker, and Harold L. MacKenzie as ballot clerks, they were severally sworn by the moderator.

The ballots prepared for use at this election by the town clerk were then delivered by him to the ballot clerks and their receipt taken therefor.

Cards of instruction and specimen ballots were then posted as required by section 248 of chapter 560 of the acts of 1907.

The ballot box furnished by the commonwealth for use at elections was publicly opened by the moderator and shown to be empty. The box was then locked and the keys delivered to John W. Crisp, the officer in attendance.

The polls were opened at five minutes past six o'clock in the forenoon, and were kept open until forty minutes past five o'clock in the afternoon, when, as the meeting had previously voted, they were closed.

Voted to postpone action on all articles except article two for the election of officers, until seven-thirty o'clock in the afternoon.

The following tellers were appointed by the moderator and sworn by him, viz: Alfred Parker, Leonard Dawson, Dana L. Southworth, Andrew J. Casey, Wallace G. Rae, J. Joseph Coppinger, Timothy F. Allman, Francis J. Stanwood.

At twenty minutes past one o'clock in the afternoon the ballot box was opened by order of the moderator and town clerk, and five hundred and fifty ballots cast by men voters were taken therefrom. Record of General Election

NOVEMBER 8, 1910

In pursuance of the foregoing warrant, the inhabitants of the town of Needham, qualified to vote in state elections, met in the town hall on Tuesday, the eighth day of November, in the year one thousand nine hundred and ten, at six o'clock in the forenoon, and were called to order by John A. Tilton, chairman of the board of selectmen, who read the return of the officer who notified and warned the inhabitants.

The selectmen, having previously appointed Frank J. Stanwood and William F. Casey as tellers and Luke W. Keith, G. Gilbert Toone, Walter Hewett and William J. Gilfoil to act as ballot clerks, they were severally sworn by the town clerk.

The package containing the first set of ballots received from the secretary of the commonwealth was then delivered to the ballot clerks, and their receipt taken therefor.

Cards of instruction and specimen ballots were then posted as required by law.

The ballot-box furnished by the commonwealth for use at elections was then publicly opened and shown to be empty. The box was locked and the key given to John W. Crisp, the officer in attendance at the polls.

Additional tellers were appointed by the selectmen and sworn by the town clerk, viz: John J. Warren, Wallace G. Rae, Harold J. Fitzgerald, William A. Parks, Arthur F. Woodward and Rodney S. Adams.

The polls were opened for the reception of ballots at two minutes past six in the forenoon, and were kept open until thirty minutes past four o'clock in the afternoon, when it was voted to close the polls.

At the opening of the polls the ballot-box register stood at 000.

At the close of the polls the ballot-box register stood at six hundred and ninety-two. As the ballots were taken from the box they were audibly counted by the presiding election officer and announced as six hundred and ninety-two. The names on the list of voters, used at the ballot-box, which had been checked, were counted and the number found to be six hundred and ninety-two, which agreed with the number of names checked on the list kept by the ballot clerks.

A canvass of all the votes given in was made by the election officers, as required by Chapter 560 of the Acts of 1907, the blank forms furnished by the secretary of the commonwealth being used.

Upon completion of the canvass of all votes cast, the whole number being duly sorted, counted and recorded, public announcement thereof was made by John A. Tilton, chairman of the selectmen, in open meeting, and was as follows, viz:

Report of Forest Warden.

Needham, Mass., Dec. 31st, 1910.

To The Honorable Board of Selectmen :

Gentlemen:—I herewith submit my second annual report at Forest Warden. In accordance with the Statutes, the required notices were published in the Needham Chronicle during the month of March.

There have been issued from this office 267 permits for the burning of fires during the past year.

The necessity of this requirement is obvious in view of the fact that four alarms were given during the past year for fires caused by the burning of rubbish.

I have endeavored to strictly enforce the following law: Chapter 209, section 1, of the Acts of 1908.

“In a town which accepts the provisions of this Act, or has accepted a corresponding provision of earlier laws, no fires shall be set in the open air between the first day of April and the first day of December, except by the written permission of the Forest Warden, provided that debris from the field, gardens and orchards, or leaves and brush from yards may be burned on ploughed fields by the owners thereof, their agents or lessees, but in every case such fire shall be at least two hundred feet distant from any forest or sprout-land, and shall be properly attended until it is extinguished. The Forest Warden shall cause public notice to be given of the provisions of this Section, and shall en-

force the same. Whoever violates the provisions of this Section shall be punished by a fine of not more than one hundred dollars, or by imprisonment for not more than one month, or by both such fine and imprisonment."

I respectfully request the co-operation of the citizens of the town in the continued enforcement of this law.

Respectfully submitted,

H. H. UPHAM,

Forest Warden.

Report of Keeper of Lockup

To the Honorable Board of Selectmen Town of Needham:

Gentlemen,—I hereby submit my annual report of the doings of the Police Department for the year ending December 31, 1910:

No. of arrests	41
No. of cases	46
No. of adults	40
No. of juveniles	1
No. of non-residents	31
No. of residents	9
No. of males	39
No. of females	2

Causes of Arrests.

Assault and battery	6
Attempted larceny	4

Pending	4
Settled out of court	1
Amount of court fines	\$201.02
Amount of jail fines	55.00

While the foregoing sets forth the statistics of the work of the police for the past year, it does not fully represent all the service rendered by the officers of this department.

The special officers are frequently called upon to investigate alleged cases of misdemeanor, larceny, and other offences, many of which are found to be groundless or lacking sufficient evidence to warrant prosecution. For such service in any case wherein no arrest is made, no compensation is allowed. Nevertheless, real service is rendered in the interest of good order, and the officers should receive due credit therefor.

Respectfully submitted,

NORMAN MACKENZIE,

Keeper of Lockup.

Report of Inspector of Wires

Needham, Mass., Jan. 16, 1911.

To the Honorable Board of Selectmen:

Gentlemen:—The Edison Electric Illuminating Co., The New England Telephone & Telegraph Co., The Postal Telegraph Co., The Middlesex & Boston St. R. R. Co., and the Old Colony St. R. R. Co., all have pole lines in the town and during the past year they have made extensive repairs to the same.

At the urgent solicitation and insistence of your Inspector they have adopted the plan as far as possible of using one set of poles for all. The result is that on many of the streets where they formerly had two and three sets of lines there is but one now, thus removing a large number of unsightly poles which disfigured the thoroughfares.

The domestic lighting service has been greatly extended, the wiring installed being in strict accordance with the Rules and Requirements of the New England Insurance Exchange.

We have the assurance of the Edison Co., that they will during the coming year rebuild the line on Dedham Ave., and possibly on Great Plain Ave.

Respectfully submitted,

WILLARD B. COOKSON,

Inspector of Wires.

Report of Superintendent of Fire Alarm

Needham, Mass., Jan. 16, 1911.

To the Honorable Board of Selectmen:

Gentlemen:—In accordance with the recommendations of this department in the report last year, the town at its annual meeting in March appropriated the sum of \$1300.00 for an automatic repeater for the Fire Alarm system, and \$1150.00 for the installation of the same and the maintenance of the department. These liberal appropriations have enabled the department to establish a practically up-to-date system, the future maintenance of which will be at a minimum. We have also been enabled with this money to install about four miles of insulated wire in place of the bare wire, thus adding to the further efficiency of the system.

Owing to the acid fumes it was deemed unwise to install the repeater in the basement of the town hall, and it was therefore located in the Assessors' office. The town was fortunate through the generosity of the Gamewell Company in obtaining at a nominal price a handsome oak pedestal for the repeater to rest upon. We have also removed the entire battery system to a separate room thereby doing away with the disagreeable effects of the acid fumes which were permeating the entire building.

The service was greatly improved by the installation of six new Fire Alarm boxes and two tappers, but I recommend putting two more boxes in this year, one of which will be

on Chestnut St., opposite Cottage St., Needham Junction, and one on Central Ave., at the corner of Fisher St., Charles River.

At Needham Heights in the sections where the Edison Co. have rebuilt the electric light lines they have reconstructed the Fire Alarm system at practically no expense to the town, and today the entire system is in better condition than ever before, and with the exception of the remaining bare wire should last a long time at a low cost for maintenance.

It is the judgment of your Superintendent that an appropriation of \$800.00 will be ample to keep the system in its present condition and substitute about four miles more of insulated wire in place of the old bare wire.

Respectfully submitted,

WILLARD B. COOKSON,

Supt. of the Fire Alarm.

Report of Fire Department

Fire Department Headquarters.
Needham, Mass., Dec. 31st, 1910

To the Honorable Board of Selectmen:

Gentlemen:—I herewith submit the twenty-fifth annual report of the Needham Fire Department.

The number of calls upon the department during the past year have been as follows: Bell-alarms, twenty (one second alarm); still-alarms, thirty-eight.

Of these, 7 were for fires in buildings, and 51 for fires in grass and woods.

Tabulated below are the causes of all fires so far as known.

Sparks from locomotive	8
Defective chimney	2
Oil stove	1
The burning of rubbish	4
Fire works	1
Set by children	6
Incendiary	5

On account of fires set by locomotives, under the law which compels railroads to reimburse towns for the expense incurred in the extinguishing of the same, there has been collected through this department, and from the N. Y., N. H. & H. R. R. Co., \$106.00, this amount having been paid the town treasurer. There is still pending a claim of \$21.50.

There has been received from other sources on account of

fires \$20.00, and \$30.00 has been paid into the town treasury for hose condemned the past year.

In my last annual report I called attention to the increased expense to the town caused by needless alarms.

By way of illustration, if the thirty-eight still alarms given mostly by telephone had been bell alarms, the cost to the town would have been more than doubled.

It is worthy of notice that of the fifty-eight alarms during the year but twenty were bell alarms.

The value of buildings and their contents in which fires occurred, the amount of insurance on the same, and the loss and the amount of insurance paid, is as per the following table:

Value of buildings insured.....	\$8,925 00
Insurance on same	9,000 00
Damage to buildings insured....	485 00
Insurance paid on buildings	345 00
Value of buildings uninsured....	none
Value of contents insured	1,930 00
Insurance on same	1,662 00
Damage to same	767 00
Insurance paid on same	474 45
Value of contents uninsured	1,100 00
Damage to same	none

The amount of hose laid by the department during the year is 3700 feet. Amount of chemicals used is 398 gals. and 105 feet of ladders were used.

The total number of men in the department, including the Board of Engineers, at this date is 51.

All the apparatus and appliances belonging to the department are in excellent condition.

The department is deficient in its hose equipment, and I recommend the purchase of an additional five hundred feet.

I would further recommend the addition of a new box to the fire alarm system at the corner of Central Avenue and Fisher street, Charles River Village, near the Walker Gordon estate.

The nearest box to this locality, where there is considerable amount of frame buildings, is about a half mile,

There has been a new law exacted during the 1910 session of the legislature relative to the keeping, sale and storage of fire-works, viz.: Acts of 1910, Chapter 565. In accordance with these provisions the Fire Inspection Department of the District Police, have adopted certain regulations with which all merchants should make themselves familiar. Copies of these laws and regulations may be had on application.

I would further recommend that the town authorize a committee to investigate the advisability of the erection of a new central fire station.

The present quarters were built in 1886, and the time is fast approaching when extensive repairs and alterations will be absolutely necessary. The building is lacking in accommodations; its construction, and the land as well, will not allow for further additions. Most certainly its appearance is not in keeping with other town buildings which have been erected during the past few years.

I firmly believe that some definite action should be taken with a view to the future requirements of this department.

Respectfully submitted,

H. H. UPHAM.

Chief of Fire Department.

Report of Superintendent of Street

To the Honorable Board of Selectmen :

Gentlemen:—I submit the following report of the Street Department for the year ending Dec. 31, 1910.

Special Construction.

Rosemary Hill Street.

A special appropriation of \$2,00 was made to build this street, which was laid out and constructed under the Betterment Act. The street is 1100 feet in length and 40 feet wide and was built of gravel, at a good grade. Sidewalks were constructed on both sides of the street. The total cost of the street was \$1,833.72. The cost to the abutters was \$878.67.

Cleveland Road.

A special appropriation of \$800 was made to construct Cleveland Road under the Betterment Act. This street is 500 feet in length and 40 feet wide and was built of gravel. The subgrade was built of gravel from the Water land, and this was surfaced with gravel from Hurd's pit. Gravel sidewalks were constructed on both sides of the street. The total cost of this street was \$679.68. The cost to the abutters was \$339.84 .

Macadam Construction.

Highland Avenue.

Highland Avenue, between Mellen street and Rosemary street, 1700 feet in length, was macadamized, and tar was used as a binder. After the roadbed was shaped, the No. 1, or egg-sized crushed stone was laid and rolled. This surface was sprayed with hot tarvia, and covered as soon as possible with 2 inches of No. 2 stone which was rolled, making a bond with the first course. The second course of stone was sprayed with 3-4 of a gallon of hot tarvia per square yard, and immediately covered with fine stone chips and rolled, making a water proof surface which should resist wear and be practically dustless. 4000 yards of macadam was laid. The cost of preparing the subgrade and macadamizing was \$1,322.62 The tarvia cost \$492.52, making the total cost \$1,814.62 or 45c per yard.

Dedham Avenue.

Dedham Avenue, from Great Plain avenue to Webster street, 2035 feet in length, was macadamized. The subgrade was shaped to grade with gravel and 7 inches of crushed stone was placed and rolled. The grade provides that the surface water will reach the catch-basins on the pipe drain which was laid in this street the previous season. 5700 yards of macadam was laid at a cost of 32 cent per yard. The total cost of the street was \$1,812.00.

South Street,

South street, from Webster street. to the Ingols residence, was macadamized. The street was properly graded, and 6 inches of rolled crushed stone was laid for a distance of 1800 feet. 3000 yards were laid at a cost of 29c per yard. Total cost of street, \$848.50.

Kimball Street.

This street extending from Pleasant street to Lincoln street, was dug to grade, and the loam removed. A foundation of pit stone and rough gravel was laid, and the street was surfaced with gravel from Cornwall's and Hurd's pits. The cost of this street was \$1,070.50.

The following streets were repaired and surfaced with gravel:

Union street.

Hunnewell street from West street to Webster street.

Dedham avenue from South street to bridge.

Charles River street from Grove street to Pine street.

Webster street north of Great Plain avenue.

Central avenue from Cedar street to residence of P. Egan.

Hunnewell street from Central avenue to town line.

Highland avenue north of May street.

Sidewalks.

A granolithic sidewalk was laid on the west side of Highland avenue from May street to the coal yard under special agreement with the abutters who paid 3-4 of the cost.

A granolithic walk was built on the north side of Great Plain avenue from the railroad to Chapel street.

The stone wall along the front of the North school lot was taken down and rebuilt on the proper street line and a gravel sidewalk constructed. Many of the gravel walks were repaired and resurfaced.

Drainage.

9 catch basins and 400 feet of drain pipe were put in places where needed. The surface drainage of that territory which centers at Great Plain avenue and Webster street should receive consideration at this time. A drain down Hunnewell street from West street to Conant street would relieve Hunnewell street from the water which settles in that street, saturating it so that in the spring it is unfit for loaded teams. The dry wells on Chapel street in the

rear of the town hall should be piped to connect with one of our existing drains allowing the water which now stands on the surface to run off freely.

Fences and Bridges.

Kendricks Bridge and Pierce Bridge should be replanked the coming season. The iron bridge on Dedham avenue has been replaced by a two-arch concrete bridge, the cost being divided between the county, and the towns of Dedham and Needham. This bridge should need no repairs except to the gravel roadway during our time.

1800 feet of guard railing was built. Many of the old fences are in poor condition and quite a large outlay will be required to rebuild them.

Dust suppression.

A large amount of the street appropriation, perhaps more than the other needs of the highways warranted was spent in dust laying, and judging from the demands made a still larger sum will be needed before the citizens will be in the least satisfied with the territory covered by dust laying preparations. $5\frac{1}{2}$ miles of road were covered with Tarvia B. and about 6 miles were sprinkled with an asphalt oil emulsion which gave very good satisfaction but which needed to be applied at frequent intervals to obtain satisfactory results. The amount spent for dust-laying was, for labor \$643.75, for materials \$1,585.05, or a total of \$2,228.80. The state paid 1-2 the cost of surfacing the state road on Chestnut street with Tarvia B.

A new 50-horse-power steam boiler was bought and installed at the ledge on South street and used to operate the crusher. Its use has materially reduced the cost per ton of crushed stone.

Respectfully submitted,

D. H. LIVINGSTON,
Superintendent of Streets.

Report of Tree Warden

Owing to the persistence of the elm leaf beetle during the spring of 1910, the spraying of the elms was considered the most necessary work of the season.

By the use of improved nozzles and a hand sprayer for a part of the work, some saving in expense was made, so that a larger proportion of the appropriation was available for other purposes. Several dead trees were removed and a number of large elms were relieved of dead and useless branches. Five elms in a dead or dying condition were removed from Great Plain Avenue, near Warren Street. This was done in co-operation with the Highway Department, the steam roller being used for pulling the stumps, thus greatly facilitating the work.

These trees should be replaced in the spring and a small amount of planting done in other localities. While I consider it poor policy to spend much of the appropriation for planting when the larger trees are so much in need of attention, it seems advisable to do a little each year to keep up with the loss from various causes.

Considerable trimming was done on Forest Street, where the many low branches were a serious nuisance. . .

Charles River Street between Central Avenue and the railroad received considerable attention, the brush being cut, the trees trimmed to a proper height, and the dead and useless wood removed.

Work of the same kind was done on Chestnut Street, with the permission and help of the Massachusetts Highway Commission. By doing a little of this each year, the trees can eventually be brought into very good condition.

The damage from electric wires is hardly as great as formerly because of improved methods of insulating and the use of more care by those having them in charge. Climbing irons are used much too freely by some of those working among the wires. It should be remembered that such offences are punishable by law, and prosecution will be resorted to if warnings prove unavailing.

The damage caused by horses still continues to a slight extent, and it should be unnecessary to call this to the attention of owners and drivers, when the most ordinary care would prevent such damage.

The elms in some localities are in rather poor condition, owing to several very dry seasons and to repeated attacks of the beetle. In a few instances serious injury has been done some of the larger trees by cutting large roots, in sidewalk and street construction. One case has been called to my attention, of the tapping of maple trees for the sap. While in this instance the damage was slight, this practice can be nothing but an injury and disfigurement to the trees, which were hardly intended for such a purpose.

The law concerning public shade trees seems to be generally misunderstood and much injury is done through simple ignorance. It is illegal for any person to cut branches or to mutilate a street tree in any way or for any purpose without the consent of the tree warden. This law applies to small trees and brush growing on or within the highway bounds as well as to trees planted by the town.

In the case of wood lots bordering on the highway, where the bounds are not clearly known, it is necessary for the owner to prove his ownership to a tree before cutting it.

These provisions are but a few of the many in force for the

protection of our trees, and it is advisable for all intending to tamper in any way with public shade trees, to ascertain their rights before proceeding.

Respectfully submitted,

E. E. RILEY,

Tree Warden.

Report of Superintendent for Suppressing Gypsy and Brown-Tail Moths

To the Honorable Board of Selectmen:

Gentlemen:—I herewith submit the report of the moth department for the year ending December 31, 1910. In dealing with the moth pest this year practically the usual methods have been followed.

A number of walls and rock heaps were burned out in the spring, with very satisfactory results. The spraying was very successful, except in two instances of small woodland colonies, of the gypsy moth, where the effect of the work was rather disappointing.

Fewer burlaps were applied than usual, but these received more attention than last year. The economy of too close attention to the burlap turning is open to question, and better results would undoubtedly have been obtained by applying more burlaps even if they were not turned quite so often.

I think it may truthfully be said that the condition of Needham as regards the moths is fully as good as any of the neighboring towns, and better than some.

There seems to be an unusual abundance of the brown-tail, both in Needham and other towns in the vicinity. This is probably due to weather conditions, as these insects are widely distributed by high winds, and always spread in the

direction of the strongest winds prevailing at their time of breeding.

While the gypsy moth is being satisfactorily kept down in the residential districts, there are some woodland colonies where serious damage is bound to occur unless the owners of such property show more interest than they have.

The tax for moth work is based on the valuation of the property on which the work is done, and the valuation of most wood land is so low that a large per cent. of the expense of woodland work must be paid from the public appropriation unless the owners are willing to pay more than their legal liability. Accordingly it is possible for this department to do but a small amount of woodland work each year, and this only on the more valuable property and in places from which there is the most danger of spreading.

A few property owners are beginning to take interest in the work and are co-operating with this department. This is especially true of some of the larger owners, and is proving a great help. While a part of this work can be well done only by persons of some experience, there is much that can be done by any one. The application and care of burlaps is a very simple matter, and requires only a little time and attention.

By keeping down the brush and useless trees along walls and fences property owners might save themselves much trouble and expense. Orchards thoroughly sprayed in May and early June for the ordinary orchard pests usually require no further attention for the gypsy or browntail moths. especially if kept in proper condition by pruning, scraping, and closing the holes left by decayed branches. In orchards thus cared for, there is little danger from either the gypsy or the brown-tail moth.

Respectfully submitted,

E. E. RILEY,

Local Superintendent of Moth Work.

Report of Board of Selectmen and Overseers of the Poor

For the Year 1910.

To the inhabitants of the Town of Needham:—We herewith submit our report for the year 1910 together with our recommendations for the current year.

Highways and Bridges.

Dedham Avenue Bridge:—The work on the bridge has been completed, the entire cost being \$19,028.35. The County of Norfolk assumed \$9,514.18, equal to 50 per cent., and assessed upon the Town of Dedham \$5,708.50, equal to 30 per cent., and upon the Town of Needham 20 per cent., equal to \$3,805.67, which amount has been paid into the treasury of the county.

Highways:—The condition of our highways is steadily improving. During the last year, Highland Avenue from Mellen Street to Rosemary Street has been macadamized, with coatings of hot tar used as a binder.

Dedham Avenue from Great Plain Avenue and a portion of South Street have also been macadamized. These streets should be cared for during the coming seasons by an application of "Tarvia B." By so doing, the road surface will be preserved. Considerable work should be done upon Great Plain Avenue and other thoroughfares.

New Streets:—Several applications have been received by the Board for the laying out of new streets under Chapter 50 of the revised laws, known as the “Betterment Act.” The streets applied for are Appleton Park, Bradford and Manning Streets. These streets are located in a rapidly growing section of the town and should have consideration.

Care of Streets:—The care of streets has become a very important matter. The use of oil and Tarvia to stop the dust nuisance has proved a success, and also preserved the streets. Something over \$2,200.00 has been expended, but owing to the increased demand for the elimination of dust much more should be used; but as you all know, our appropriation is limited.

Sidewalks:—During the past year several applications have been made for new sidewalks, but all could not be built on account of insufficient funds. A granolithic walk has been built upon Highland Avenue from May Street to, and beyond, the property of William H. Wye; the abutters agreeing to pay three-fourths of the cost of construction. There has also been built a much needed granolithic walk from Chapel Street to the railroad crossing on Great Plain Avenue.

Fire Alarm.

Since the installation of the automatic repeater and the new insulated lines of wire that have been substituted for the old iron wire, we feel that our fire alarm service has been greatly improved. With good care and attention, the alarms should come in promptly and accurately.

Fire Department.

The fire department is in very good condition, and all fires have been handled in a very commendable manner. For further details regarding the work of this department,

a perusal of the chief engineer's report will be found profitable.

Police.

A perusal of the report of the keeper of the lockup shows our town to have been singularly free from crime of a serious or revolting nature during the past year. Such offences as were committed were principally of a minor character.

Care and Support of the Poor.

During the past year, every just case that has been presented to the overseers has been promptly attended to and relief granted.

Board of Health.

The health conditions of the town at present are exceptionally good, and we trust will continue so. Every contagious disease that has been reported to the board has received prompt attention. During the past year, we had one case of small-pox which might have proved very serious. Prompt action on the part of the board, acting under the advice of the State Board of Health and our town physician, whom we placed in full control of the situation, checked what might have developed into a serious condition of affairs.

The rapid growth of our town makes it apparent that proper means must be provided for the collection and disposal of garbage and refuse in the near future. This matter has been called to the attention of the board several times, and in our opinion should receive the careful attention of all citizens interested in the preservation of the health of the town.

The Glover Home and Hospital Corporation.

Pursuant to a vote passed at the January meeting of 1910 and in accordance with the provisions named in the

will of the late Frederick P Glover, the Selectmen appointed as trustees: Mr. William G. Moseley, for four years, Mrs. Helen B. Chapman for three years, Mr. Charles E Stanwood for two years, and Mrs. Addie M. Carter for one year.

The said appointed trustees together with the Board of Selectmen organized a corporation to be known as "The Glover Home and Hospital Corporation" with Mr. William G. Moseley as President, Mr. Charles E. Stanwood as Treasurer, and Mrs. Helen B. Chapman as Secretary. . .

Respectfully submitted,

JOHN A. TILTON,

WILLIAM A. PROBERT,

HENRY T. CHILDS,

Selectmen of Needham.

The year 1910 has been uneventful and prosperous. A library circulation approaching 30,000 volumes annually is a most creditable record for a town of five thousand souls. The trustees regret that they have not been able to purchase all the new books desired, but for three years heavy expenses have been met from the regular appropriations that the town might not be called upon for special grants.

The distribution of books to children in different parts of the town is a success, and the delivery station at the Upper Falls appears to serve a good purpose. The trustees wish to express their appreciation of the efficient librarian, and regret at losing a most capable assistant in consequence of the resignation of Miss Pauline Coppinger.

Respectfully submitted for the trustees,

GEORGE K. CLARKE, Chairman.

Auditor's Report

Needham, Feb'y 21, 1911.

An examination of the accounts of the various financial officers of the town show them to be correct and all moneys properly accounted for.

In presenting the financial report of the Selectmen for the past year a change has been made over the reports for the previous years. This has been done primarily to make it conform to the requirements of a detailed report which has to be submitted to the Commonwealth, and which is used by it for comparative purposes. I believe, however, it makes a much clearer report, giving as it does the total amount spent for each principal town department.

I wish to call attention to one item which is somewhat misleading. In the charges against the Assessors' Department appears a charge for telephone service amounting to \$78.90. This telephone is on a measured service line, and is used by both the Assessors, and School Departments, but as there is no way of apportioning the charge to the two departments it has been charged to the assessors in whose name it stands. A large part of it however belongs to the School Department.

Respectfully submitted,
ARTHUR E. SMITH,
Auditor.

Report of School Committee

Following custom long established, your committee presents their report designed to show the condition of and progress in the public schools. The detailed financial report sets forth the expenditures in the various departments of this important branch of town administration. The report of the school superintendent calls attention to the work done in the schools and the question of school accommodation calling for immediate action. This report gives evidence of considerable thought and study upon the part of the Superintendent and it is hoped his report will be given the consideration to which it is entitled. The need of immediate provision for the care of the children in the section of our town near Highland Avenue at the Charles River must be apparent to all and the committee feel that a site should be secured at once and a building erected to care for children living in this section. Owing to the distance from the Eliot School these children cannot be cared for at that school unless a tunnel is built under the railroad, so that children can cross the tracks in safety, and if this should be done the relief would be only temporary and in a very short time a building near Highland Avenue must be built. The question of another schoolhouse is one that we feel assured will be given proper consideration by the town and as in the past will, when decided, be decided rightly. The Harris School will require considerable work this summer in order to put it in condition to care for the needs

of that section. The room on the first floor should be thoroughly renovated, the room on the second floor made ready for use and a proper heating plant installed and necessary sanitary arrangements provided. The cost of these improvements the committee estimate at about \$2,000. The Parker School should be painted and some changes made in the basement so as to render the basement and out-buildings more in keeping with modern requirements. Owing to the increase in the number of pupils in the Kimball School it is necessary to enlarge the sanitary arrangements, and this will require considerable alteration so as to secure sufficient room and proper ventilation. The floors throughout this building are badly worn and new floors should be laid. The estimated cost of these changes is \$3,000. The other school buildings are in very good condition and the town is to be congratulated upon having such a good plant as now exists.

The school work has progressed very satisfactorily the past year. The committee have endeavored to keep up with the times. Much time has been spent in the attempt to secure good teachers and we feel that the town has the benefit of the service of capable teachers, a good superintendent, and what is of great importance, the good will and support of the parents. The result being that Needham has today a school system that compares favorably with any in the state, all other conditions being equal. This feeling is not by reason of comparison between schools because such a comparison cannot be made, and is never attempted by any recognized body; it is only warranted by results and these results are the successes attending scholars who have gone from our schools either to work or to other schools for advanced study and whose qualifications and progress compare favorably with those of scholars from other communities. The good work of our schools is entitled to the commendation and recognition of our people.

The school spirit is greatly improved. This is a very im-

portant factor in securing the best results. If children feel that their teachers are not held in high regard and that the standard of our schools is slightly referred to, it is at once reflected in the attitude of the scholars. If the feeling is abroad that we have good teachers and good schools the scholars reflect this feeling and the result is very much better work. The schools are for the children of Needham. It is of vital importance to those parents who are denying themselves so as to afford their children the opportunity to attend school that the work of the schools shall be along lines of concentrated effort, securing to the children the very best return for the time and effort expended. The size of the town, the wealth of the town, the amount of money that can be afforded by the town are all to be taken into consideration and the plan of the school controlled by the idea to furnish to each scholar the solid ground work of a good education. This being the controlling idea, it decides at once that many of the fads and fancies indulged in by wealthy communities have no place in the schools of Needham. Unless comprehensive and complete courses can be given it is better for our town to confine itself to the more commonplace and bread-and-butter phases of school work and insist on thorough mastery of the fundamental and needed branches of education. Experimenters and theorists are desirable, they have their place in the world, but it is better for this town to hold to that which has been proved good rather than to be wasting time and money on every new thing advocated. Let others experiment and Needham adopt that which is shown upon thorough trial to be desirable and needed.

The public school can never fill the place of home or parental training. The father who expects his boy to learn the principles of honesty, integrity and uprightness wholly in the public school is failing in his duty as a parent and taking great risks. The boy should have these virtues set before him at home and there taught the duties of citizen-

ship and his responsibility to society. The mother who fails to teach her daughter the responsibilities of life and set forth the proper line of conduct, which if followed out will result in developing a high type of womanhood, is trusting too much to the schools and shirking her individual duty. The schools can supplement home training, it ought not to be expected to take the entire duty. If parents will only exert themselves a little more along this line the whole tone of the town will show a decided advance. The question of school athletics has caused the committee some concern for the reason that it is apparent that this department has not been given its correct place in the mind of parents as relating to school work. It is desirable that athletics be under the control of the principal or master in the High School and all games be under his direction. The high school is not designed primarily to produce foot-ball or base-ball wonders. A good team gives a certain standing to a school but if it loses its desirable points as an educational factor it works harm instead of good. The great lesson to be learned in athletics is to obey. The good player, good team work, is all the result of confidence in the Captain and obedience to his orders. Good school work is the same. It requires prompt and cheerful obedience by the scholars. There are times when circumstances render it advisable for the teacher to change plans in connection with the schedule of games, arranged by the athletic manager. When such occasion arises the boys should cheerfully meet the change and not grumble. The arrangement of games should be approved by the teacher, and the parents should encourage the boys to work with the school authorities, and when change of plan is necessary, allow that the teacher who makes the change has good reason for it, rather than encourage a questionable spirit.

The whole aim of those in charge of the schools is to provide the best possible for the children and help and encourage them to become good men and women. As the

children are yours it is of the utmost importance that you give us your full support. To obtain proper results united effort is necessary.

In closing the Committee again affirm that they view their office as one of great importance and responsibility and have endeavored to secure to the schools the very best teachers, regulations and service obtainable. We must wait for our results.

The total cost of the school the past year was in round numbers, \$34,000. The Committee feel the requirements of the coming year call for \$35,000 together with the money received from tuition and the income from the Dwight School fund and \$2,500 for alterations and repairs.

Respectfully submitted,

WILLIAM G. MOSELEY,

HORACE A. CARTER,

ADELINE E. HARRIS,

School Committee.

Report of Superintendent

To the School Committee of Needham:—

I herewith submit to you my fourth annual report of the public schools.

More than eleven hundred children received instruction in the public schools of Needham during the past year. Some of them moved away, and some of them graduated to take up higher education, or to go to work, and in the Needham schools the pupils have received the very best of training for future usefulness.

The records of the past show that boys and girls of Needham were quite able to keep up with boys and girls from other towns and cities. The records of the future are going to show that the present generation is not one whit behind. In fact, I look for these future citizens to take the lead in many fields of labor. I fully appreciate my privilege in having a part in their training and education.

The work of the past year has gone on with customary smoothness, and with a feeling when the year was ended that we had accomplished a great deal. There has been no friction and no noise, and yet every portion of the "machine" has been in working order and fulfilling its part with a will.

Changes in Teaching Force.

Twelve changes have occurred in the corps of teachers

this fall. In the High School were found Mr. John Reaveley as principal; Miss Florence L. McAllister in the Latin department; Miss Virginia A. Conant as teacher of modern languages; and Miss Alice H. Edwards and Miss Abby F. Burns, commercial teachers.

At the close of the school year the resignation of Miss Mary M. Sutton of the Kimball School, was regretfully accepted. It does not seem to be out of place here to make mention of the work and worth of one whose service has been so uniformly successful. Especially is this true in the case of a teacher who maintained such a high standard of efficiency; who kept herself abreast of modern methods; who was a close student of her pupils' needs; and who made her school-room a place of profit and pleasure, both to pupil and to visitor.

In Miss Lillian M. Huntington, we have, I think, a teacher who will do her best to keep up the high standard of work demanded in grade four.

In the same school, Miss Maude H. Phelps takes up the work in grade eight, and Miss Helen F. Duncan is in grade seven.

Mr. Josiah S. McCann, after giving five years of service to the Avery School, resigned to accept a more desirable position as Superintendent of Schools in western Massachusetts, and Mr. Henry T. Prairo succeeds him. Only one other change was made in this school, Miss M. Louise Foster taking up her duties in grade four.

In the Eliot School a decrease in numbers permitted the work to be carried on by three teachers, and Miss Eberhardt, Miss Parker and Miss Kimball were retained for the year beginning in September, and Miss McCann was transferred to the Parker School.

Just before the Christmas vacation, Miss Rachel L. Harvey resigned as drawing supervisor to accept a more lucrative position in Wareham, Bourne and Sandwich. We regret losing Miss Harvey right in the middle of her most

prosperous year in Needham. Miss Florence L. Bean will succeed her, taking up the work on January 15. With such high recommendations and creditable record as she brings with her, I feel that the work will go along without any perceptible break, and that with the help and encouragement given her by the teachers, her first year in Needham will be a prosperous one.

Music and Drawing.

It is unnecessary to state that music has come to be recognized as an essential part of the school curriculum from the first grade through the High School. Its educational value is fully conceded. I can express my appreciation of the work done by our pupils under the careful instruction of our teachers and the faithful supervision of Miss Bartlett only in the highest terms. I mentioned the fact last year that Needham was showing far more interest than ever in the work of music. This interest seems to have increased to such an extent that many outside of the school have secured Miss Bartlett's services and have given the parents an opportunity to get further acquainted with our music supervisor in work done outside of the actual school-room. I wish there was some way in which the parents would get similarly acquainted with all the teachers.

Under the supervision of Miss Harvey, the work in drawing has progressed much the same as in the past three years. Drawing is a subject that goes along about the same year after year. I think that a supervisor should be encouraged to give all she can to our schools, and I think that the teachers should co-operate with the supervisor in giving to the school such courses as will be most beneficial to the pupils, and those that the town can afford, instead of attempting a little of this, a little of that and a little of the other thing. In order to get good results in any subject we must give to the children of our schools as good instruction as it is possible

to give, and we must furnish the tools and equipment to both pupils and teachers. If a school can not give to its pupils more than a mere smattering of a subject, it is far more to a pupils advantage to drop the subject entirely, and concentrate the efforts of the teacher upon subjects that can be thoroughly mastered. At present in our schools we do not have the room nor the equipment for a good substantial course in manual training; to secure proper results, special teachers are required, and until the growth of the town justifies the employment of such teachers, an extension of our present course would in my opinion be unwise.

An Item of Interest.

I should like to call your attention to the work done by the students of the class of 1910 who entered college this fall. Before I do so, however, I should like to review what has been done in the past three years to benefit the school. A choice of a prescribed course of study, rather than an election of studies themselves, has been insisted upon. This has meant doing away with the elective system. That in itself was one of the most beneficial steps ever taken to improve the work. It is a fact that today Harvard and Yale are taking strenuous measures to limit these elective studies. When institutions of learning that have as students young men and young women of mature minds, consider that work should be taken up only under the wise direction of experienced instructors, is it any wonder that the plan has proved an absolute failure in the high schools of the country? The next few years will show a decided change in educational affairs and high schools especially will find that the efforts of the teachers must be concentrated upon the subjects that will give either a good substantial college course or a course of study that will enable a student to go out and succeed in a business career.

Then again we have had for the past three years the benefit of the services of teachers whose working values have

been far in advance of what have previously been furnished the school. At the time the change was made, the maximum salary was six hundred dollars; now we are paying eight hundred to our lady teachers.

Is it not a pleasure to learn that the records of five boys of the class of 1910 show credit or honor marks in more than half their subjects this fall, and that not a single failure was registered against any one of them? Three of these boys are in the Massachusetts Institute of Technology and two are in Harvard; does it not reflect credit upon our high school to have such work done, when it is acknowledged that these two institutions require the hardest study of any in this section of the country?

School Attendance.

Notwithstanding the fact that a few more cases than usual of measles, chickenpox and whooping cough caused considerable absence from school, the percent. of attendance was only seven-tenths of one percent. lower than that of last year. I am pleased with the efforts of the teachers, pupils, and parents in working together so that the pupils may lose only a minimum amount of the year's instruction and that in most cases because of illness.

I would still urge the parents to visit the school frequently so that they may not only encourage the teachers, but they themselves may become more acquainted with the work.

Repairs, Improvements, Etc.

The grounds in front of the Eliot School have been made very attractive. It must be a source of gratification to all to have the property put in such good condition, and it must also of necessity awaken a desire on the part of all the people in this section to keep it neat and attractive.

I would again call the attention of the committee to the

need of improving the driveway of the old Avery grounds by having a sufficient quantity of gravel placed there so that the small children may not be inconvenienced by the water which gathers there in pools.

The tin on the roofs of all the schools has been repainted this year, and the cellar walls of the Dwight, Eliot and Avery Schools have been improved by whitewashing.

In the Kimball School there seems to be great inconvenience in getting water on the upper floors. The trouble seems to be in the size of the pipe that carries the water into the building. It is a great deal too small to supply water enough for the entire building. In the same building there is still the problem of getting sufficient light on dark days in grades three and four. I would urge that a narrow window be cut in the back wall in each room.

Health Conditions.

Apart from numerous cases of measles, chickenpox, and whooping cough, and a single case of smallpox, the health conditions of the past year were very favorable. In the Dwight district an epidemic of measles occurred, fortunately limited practically to that school, and the school was closed for a week, more because of the fact that children of nearly every family were exposed to the disease than because of the severity of the disease itself. In March, just prior to the spring vacation, one of the pupils of the High School contracted smallpox in its very lightest form, and the school was closed three days early for the spring recess. The building was thoroughly fumigated and the pupils were all vaccinated before they returned to schools two weeks later.

As in previous years the work of the medical inspection has been done with thoroughness and we are fortunate in having in our town doctors who are willing to give so much of their time to this work for so little remuneration. The

time spent in visiting the schools is considerable and the duties of the school physicians are being added to every year. During the past year two new requirements have been added. The first is that every child shall undergo a physical examination at least once each year; the second is that the school physicians shall examine applicants for working certificates and shall say whether or not the applicant is physically able to perform the work he or she is about to take up. I think that the school physicians should be commended for their good services and for their willingness to respond so readily when called upon to do the extra work that has been placed upon them during the past year.

School Conditions.

In the report of 1903 the Superintendent of Schools said: "The Town may begin at once to face the problem of additional school accommodations for the northern part of the town."

The town after carefully considering the matter, generously provided what was thought to be sufficient accommodations for years to come, by building the new Avery School. For some time the rapid increase—even in excess of what those who had looked into it had estimated—of the school population in the district from which the Avery School draws its enrolment, has been a forceful plea for accommodations for the pupils coming from the further end of Highland Avenue. The opening of the school year in September, 1909, justified anticipations of a serious congestion. So many children appeared for enrolment in the first grade that a second teacher was required. The fall term of 1910 opened with an unusually small first grade so that one teacher was able to handle it, and Miss Shorrocks was placed in the second grade where two teachers were required, just as in the preceding year they were needed in the first grade.

Next September there will have to be, in all probability,

two teachers in grade one and two in grade three. The year following grades one, two and four will require a second teacher. There are not rooms enough to accommodate any more teachers in the Avery School inasmuch as all the rooms, ten in all, are occupied. The only solution, and that would be merely a temporary one, would be to divide the rooms of the old building as fast as occasion demanded. Past experience has satisfied all acquainted with it that such an arrangement is not desirable except as a make-shift.

I think that Needham is getting a good healthy growth; that growth is going to be a permanent one. Why not, then, look toward a permanent solution of the problem and provide accommodations for those pupils who are drawn into the Avery School from the outskirts? I think that after the town has carefully considered the question, the same generosity will be shown that was apparent when the new Avery School was built. Let us look for a moment at the existing conditions. According to the table given below the number of children coming from the end of Highland Avenue will increase. There are now more than a hundred of them who will be in school within a comparatively short time. In these tables I have tried to make clear just what we are to expect, how many we shall be obliged to accommodate, even though there should not be any new families move into this section of the town.

Accordingly to a careful census taken, the following children are now found in the Highland Avenue section:

															Total		
Ages—Under	1	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	
No. Children	18	16	11	10	9	9	8	4	6	3	7	6	5	2	5	3	122

Of the above number, the following will be found in the Avery school:

Grades	1	2	3	4	5	6	7	8	9	Total
No. Children	6	10	5	6	5	5	2	1	1	41

It is a conservative estimate that it will be necessary to

furnish school accommodations for children from this district as shown in the following table:

Grades	1	2	3	4	5	6	7	8	9	Total
1911—	14	6	10	5	6	5	5	2	1	54
1912—	10	14	6	10	5	6	5	5	2	63
1913—	12	10	14	6	10	5	6	5	5	73
1914—	16	11	10	14	6	10	5	6	5	84
1915—	18	16	12	10	14	6	10	5	6	97

The object of placing so many figures before you is to show that in 1913 when pupils of the present second grade have reached the fifth grade, the numbers from the section referred to will be such as to warrant keeping two teachers in each grade except in the present first grade which will then be the fourth.

After 1913 when all of the rooms in the old Avery building have been divided, something further will have to be done.

Needham Heights is growing fast; with such a healthy growth as it enjoys there are bound to be increased numbers of school children to be cared for so that the rooms will be taxed almost to their utmost before a great while without the added numbers above mentioned.

In the Kimball School it will not be a great while before the pupils now transported from the seventh and eighth grades of the Harris and Parker Schools will have to be excluded because of the lack of accommodation.

The following table shows what may be expected after this year in the upper grades of the Kimball School, with no allowance being given for any increase because of the incoming pupils.

Grade	6	7	8	9
1911-12—	36	39	36	42
1912-13—	31	36	39	36
1913-14—	30	31	36	39
1914-15—	33	30	31	36

From the table below which shows both seating capacity and the number of children enrolled in the different grades

this year, it will be seen that there is not any too much room to accommodate those pupils who may come into the town in the next two or three years. In fact it was necessary because of an exceptionally large first grade to divide that grade into two sections, one of which attends school in the morning and the other in the afternoon.

Grades	1	2	3	4	5	6	7	8	9
No. Seats	49	34	32	35	36	40	35	40	62
No. Pupils	51	33	29	30	36	39	36	42	42

In the Greendale district twelve new houses have already been built and several more are planned for. Next year there will probably be more than fifty pupils enrolled in the Harris School. By putting the upper room into condition and installing suitable heating and ventilating apparatus, there would be sufficient accommodations for the pupils of the school; furthermore, by slightly changing the lines of the district and by diverting enough pupils from the Kimball School, the latter school might be relieved for three or four years.

The Parker School is in good condition. As there comes an increase in numbers, it will permit of better grading, better facilities for handling the work and therefore better educational results.

Consideration of the above statistics and facts warrants the conclusion that to properly care for the children it is necessary that immediate steps be taken to provide suitable accommodations for the pupils in the Highland Avenue section. I, therefore, recommend that a four-room building be erected in a suitable location and that two rooms be furnished for use.

With careful planning the accommodations at the Kimball School may be made to serve the needs of the town for perhaps two or three years, but with the growth in the Greendale section, the Harris School will be fully occupied, and to care for the growth on the north side of Great Plain

Avenue in the section between Warren and Manning Streets and the adjacent territory, it will be necessary, in my opinion, within a very few years, to have another central grammar school wherein all grades may be accommodated, and I recommend that steps be taken to investigate conditions so that plans may be perfected so as to properly care for the scholars in this district when it becomes necessary to do so.

Conclusion.

In bringing this report to a close, I would express my appreciation of the work done during the past year. The teachers have had the hearty co-operation of the parents; the superintendent has had the cordial support of the teachers; and it is something to think about with pleasure that while the superintendent has been ready at any and all times to listen to grievances and complaints of parents, only three parents have come to the office during this year to express displeasure or dissatisfaction with any teacher or with any of the work. This I think speaks well for the school spirit in Needham. I trust that the coming year may be as profitable as last year.

Respectfully submitted,

WALTER K. PUTNEY,

Superintendent of Schools.

Twenty-first Annual Report of the Water Commissioners

To the Inhabitants of the Town of Needham Massachusetts:

The Water Commissioners herewith submit their twenty-first annual report for the year ending December 31, 1910.

At the annual town meeting in March, Mr Edmund G. Pond was re-elected water commissioner for a term of three years.

The board organized by electing Mr. William Carter chairman, and appointing George A. Adams clerk.

Extensions.

The following extensions have been made during the year:
Appleton Park—from Great Plain Avenue to the residence of A. H. Handy, 420 feet.

Brookline street—from extension of 1909 to the residence of E. F. Reid, 877 feet.

Hunnewell street—from Central avenue to Taylor street, 501 feet.

Manning street—from the extension of 1909 to the house of E. G. Herdman, 139.5 feet.

Marked Tree Road—from the 1909 extension to the house of R. E. Perry, 117 feet.

Taylor street—from Hunnewell street to the houses of W. H. Carter, 367 feet.

Fire services have been installed at the factories of John F. Brooks Co., Rosemary Hill street.

Joseph B. Thorpe, High Street, and William H. Wye Co., Highland Avenue.

At each place were installed sprinkler systems, hydrants, and necessary gates.

There has also been installed a six inch service, with hydrant and gate to the proposed residence of Anne B. Richardson, South street. All of the above systems were installed without cost to the town as provided by the Rules and Regulations of the Water Department.

Protecting Water Supply.

The Johnson house which was purchased last year by this department, was sold at auction on June 6th, for \$293.00, and the purchaser moved it from the water works' land late in the fall. After the frost leaves the ground the cellar hole will be leveled, thus improving the unsightly appearance of this locality.

Mention was made in our last report of the feasibility of planting trees on the "Colburn Farm" water works' land. This matter was taken up this year, and five thousand white pine seedlings were purchased and set out on the east side of the railroad, extending from Great Plain avenue to Park avenue bridge.

Bonds.

Bonds to the amount of \$6.500 have matured and been paid during the year, as provided by Chapter 259 of the Acts of 1900, and in accordance with a vote of the town passed June 28, 1900. The outstanding bonds mature as follows:

Installation of New Boilers.

We have purchased and installed two new boilers at the pumping station at a contract price of \$2,575.00. This was made necessary in consequence of the state law, reducing year by year the steam pressure allowed on old boilers, and as ours had been in use twenty years, we were allowed to carry only sixty-three pounds of steam.

The new boilers are the horizontal tubular type, with overhanging fronts, sixty inches in diameter by seventeen feet, three inches long, seventy-eight tubes three inches by sixteen feet, shells three-eighths inch, heads one-half inch, open hearth fire-box steel, butted, strapped, and triple riveted, tested at one hundred and eighty-five pounds, with a guaranteed working pressure of one hundred twenty-five pounds. Grates, sixty inches by sixty inches. The boilers have all new and necessary appliances, such as pop safety valves, gauge cocks, steam gauges, water gauges, and combinations, inspirators, etc., all in accordance with the requirements of the state law.

The first boiler was set in position ready for service the first of September, the second one was not set until a month later, as the first one had to be put in position and in running order before the second old one was disturbed, thus keeping the plant in condition for continuous operation.

Water Rates.

2,222 cubic feet (or less), minimum rate of \$6.00 per annum in advance.

Water used in excess of 2,222 cubic feet will be charged at the uniform rate of 19 cents per 100 cubic feet.

Meter rental \$1.00 per annum in advance.

Bills for the minimum rate of \$6.00 and meter rental of \$1.00 per annum shall be rendered April 15, and will include the charges for excess water for the previous year,

except, however, if the consumption of water between April 15 and October 15 exceeds 2,222 feet, a bill for such excess shall be rendered and payable October 15.

There has been a falling off in the revenue from \$12,378.89 in 1909, to \$10,995.10 this year, caused by establishing a minimum rate of six dollars a year (as voted by the town) and changing the time of payment from October 15 to April 15, thus giving only one-half year's meter rental in 1910.

As the town voted to make a minimum advance charge of six dollars per annum, it was thought advisable by your commissioners to send the bills April 15 instead of October 15, as heretofore, so that the larger part of the time, which the advance covered would be in the year that the bills were rendered, and as the meter rentals had already been paid to October 15, bills were sent to cover the six months between October and April, so hereafter the bills for both water rates and meter rentals may be rendered April 15 for the yearly advance.

The advance payments in 1909 by the old rates Nos. 1, 2, 3, 4, were about \$8,000.00; this year, by the minimum rate of \$6.00, it was less than \$6,500.00, or a difference of over \$1,500.00.

It remains to be seen whether the excess water above the \$6.00 minimum for the year ending April 15, 1911, will be sufficient to overcome the loss made by reducing the advance payments.

Recommendations.

That Needham is growing can be seen by the fact that one hundred and thirty-three services have been added to the plant in the last two years. With this increase in building comes the demand for the extension of the water mains and in many cases very long service pipes.

This has been the case in 1910, and to meet these demands,

the funds of the construction account were not only exhausted, but we were obliged to borrow \$1,590.63 to pay for the work that seemed absolutely necessary to do.

The coming year it will be necessary for the town, to either vote to issue additional bonds or make an appropriation, to meet this construction work. We are of the opinion that it is not advisable to issue bonds at this time, but recommend that an appropriation of \$4,000.00 be made, for water for public purposes, to be applied to the construction and maintenance accounts, and we believe with this appropriation we can take care of the loans, also attend to the ordinary demands for new work.

Respectfully submitted,

WILLIAM CARTER,
GEORGE H. TOONE,
EDMUND G. POND,

Report of Bi-centennial Committee

The committee appointed at the annual meeting, March, 1910, consisting of the selectmen, moderator and twenty-one citizens, met soon after adjournment and organized with William G. Moseley as Chairman and Thomas Sutton as clerk. General plans for the proper observance of the two hundredth anniversary of the town's incorporation were discussed and several sub-committees appointed, and at various adjourned meetings of the committee the details of the program and suggestions of the sub-committees were considered with the result that the committee as a whole submit the following program.

The committee recommend a three days celebration and suggest September 17, 18 and 19. Sunday, the 17th. to be observed by the various churches in such manner as each society may determine, with possibly a mass meeting in the evening. On Monday, the 18th, sports of various kinds in charge of experienced managers, and a children's entertainment in the afternoon at which some suitable souvenir of the celebration will be presented to each child in town. Arrangements will also be made to have an extensive historical exhibit to be held in the vestry of one of the churches. On Tuesday morning, a civic and trades procession. On Tuesday afternoon a mass meeting, and in the evening a grand banquet and ball. It is planned to have suitable invitations prepared and sent to all persons

interested in the town and to supply invitations to any one desiring to send them to friends, or, if names are given to the committee, invitations will be mailed.

Prominent officials both national and state will be invited and some well known man obtained to deliver the oration on Tuesday afternoon. The matter of music will be properly arranged for, and also attention called to the decorating of the town. An electric display on the town hall and grounds is contemplated. The numerous points of interest in the town are to be suitably marked, and it is proposed to have two or more automobiles for use of former residents who may desire to visit the various sections of the town. At the conclusion of the celebration it is proposed to have a complete report of the affair printed for preservation and general distribution.

With a program as outlined by the committee and with the enthusiastic help of the townspeople, the occasion may be made one of pride and satisfaction, and in keeping with our position as a town with a notable history covering the past two hundred years. The committee voted to recommend for the purpose an appropriation of \$3,000.

WILLIAM G. MOSELEY, Chairman,
THOMAS SUTTON, Clerk.

Assessors' Report

We are pleased to call your attention to a few facts in regard to the growth of the town for the year 1910.

Between the dates of May 1st, 1909 and April, 1st 1910 there were two hundred and seventy conveyances of real estate, sixty-four new houses were erected, and several more about to be started.

Certain parts of the town are growing very fast, noticeably so is Appleton Park, on and around Manning street, and also a part of the "Page" property near the Greendale district. As will be seen by the table of aggregates the valuation of the town is nearly four hundred thousand dollars more than 1909. We believe that if the town is careful and conservative in the matter of appropriations, together with the interest at the present time shown by the large personal tax payers, we hope to be able to reduce the tax rate for the year 1911.
